XORAN®

POSITION STATEMENT

AAO-HNS

S

“Point-of-care imaging represents a modality of service that is in line with the Institute of Medicine’s six dimensions of high quality care; care that is safe, timely, effective, efficient, equitable, and patient-centered.

CBCT provides greater spatial resolution at a significantly lower level of radiation than a conventional CT scanner.”

ENDORSED BY

IMAGE IS EVERYTHING.

IQ = IMAGE QUALITY

SMARTER

SHARP

FOR EVERYONE

Doctors control the timing and quality of their scans

Patients can get their diagnosis and treatment plan in a single visit

Administrators generate new revenue for the practice

ER IMAGING

Specialized protocols for ENT and Allergy

High-definition (0.07mm) images optimized for sinus, ear, and skull base

View scans in under a minute

SIMPLER WORKFLOW

Integrate with EHR and navigation systems

Correlate scans with billing records

Streamline in-office diagnosis and treatment

WORKFLOW.....

THAT FLOWS AND WORKS.

XORAN

THE PIONEER

Xoran's founders invented and patented the first truly compact CBCT for in-office use by ENTs and Allergists.

THE MARKET LEADER

Using direct input from our customers, Xoran's engineers design, code, build, and service the best quality office-based CBCT systems in the world.

THE INNOVATOR

Xoran is uniquely suited to integrate your MiniCAT IQ system with the next generation of product features and upgrades that address the future needs of physicians, administrators, and patients.
